

Underwater video Courses Palawan, Philippines

We are based in El Nido, Palawan, Philippines, a truly beautiful setting and top diving destination. Your dives will be based around the many tropical islands outside of Bacuit bay.

We provide professional 4K video cameras and Nauticam housings (see equipment) and also a computer system for learning editing practices.

All our courses are sanctioned by PADI. Therefore, at the end of the course you will receive an official PADI certification card.

Pro Underwater Videographer course

This 15 day course starts from the beginning and keeps adding skills

whilst you get used to diving with a camera. After every day of diving we create a 3 minute movie of your footage. As your skill set gets bigger, your videos get better! By the end of the 21 dives, you will have the foundation knowledge to film your own professional short movies.

To complete the course you will also create a showreel to show off your best shots to friends, family and potential employers. This course is solely about filming techniques, editing practices and filming the ocean and its life.

The Lives of Octopuses and Their Relatives: A Natural History of Cephalopods by Danna Staaf

An engaging and beautifully illustrated introduction to some of the world's most interesting and charismatic marine creatures

Dive deep into the fascinating world of cephalopods—octopuses, squid, cuttlefish, and the mysterious nautilus—to discover the astonishing diversity of this unique group of intelligent invertebrates and their many roles in the marine ecosystem. Organized by marine habitat, this book features an extraordinary range of these clever and colorful creatures from around the world and explores their life cycles, behavior, adaptations, ecology, links to humans, and much more. With stunning photographs and illustrations as well as profiles of selected species, *The Lives of Octopuses and Their Relatives* is a comprehensive, authoritative, and inviting introduction to the natural history of these charismatic creatures.
